OBJECTIVE

"Aspiring software developer with practical experience in Python, web development, and backend development using Django. Built multiple academic projects including a portfolio website, scientific calculator, and employee management system. Seeking an entry-level opportunity to apply problem-solving abilities, contribute to real-world software development, and grow as a professional developer."

TECHNICAL SKILLS

- Programming Languages: Python, C/C++ , Java
- Web Technologies: HTML, CSS, JavaScript
- Framework: Django
- Database: MySQL
- Tools & Platforms: GitHub, VS Code
- Concepts: Object Oriented Programming (OOP), Data Structures using Python

PROJECTS

- **Portfolio Project**
 - Designed and developed a responsive portfolio website using HTML,CSS.
 - Created sections like About, Skills, Projects, Achievements, and Contact to showcase technical abilities and work.
 - Implemented responsive design to ensure proper display on mobile and desktop devices.
 - Hosted Projects code on GitHub for version control and public access.
- **Scientific Calculator**
 - Developed a scientific calculator using Python to perform arithmetic and advanced mathematical operations.
 - Implemented functions like addition, subtraction, multiplication, division, square root, power, and trigonometric calculations.
 - Used Python libraries such as math for complex calculations and improved program structure using functions.
- **Snake Game**
 - Developed a classic interactive game using python and the Turtle graphics library.
 - Implemented logic for movement, collision detection, and score tracking using the Random and Time modules.
- **Website about tea(Miss India Chai)** 🍵
 - Designed and developed a responsive front-end website for a tea brand.
 - Used HTML5, CSS3, and JavaScript to create a clean , user-friendly layout and interactive elements.
- **Bank project**
 - Created a backend system to manage bank accounts, deposits , and withdrawals.
 - Leveraged Object-Oriented Programming(OOPs) principles in python to ensure code reusability and secure data handling.
- **Employees management project**
 - Built a web application using Python and Django Framework to manage employee records.
 - Implemented features to add, delete, filter and view employee records in the database.
 - Used HTML and CSS for frontend and SQLite for backend data storage.

EDUCATION

- **Bachelor of Computer Applications (BCA)** – Holkar Science College, Indore (M.P.) | CGPA: 6.72 | 2023–2026
- **Class XII (MP Board)** – Govt. Ahilya Ashram Girls Higher Secondary School, Indore | 77.2%
- **Class X (MP Board)** – Govt. Ahilya Ashram Girls Higher Secondary School, Indore | 85.6%

ACHIEVEMENTS

- Selected as Student of the Year in Class 10 among more than 600 students.
- Won Gold Medal and ₹50,000 scholarship in national level Softball tournament (Chandigarh).
- Won Bronze Medal and ₹25,000 scholarship in Softball competition (Andhra Pradesh).
